Are you accustomed to receiving **superior service** and **personal attention** wherever you go?

Have you felt frustrated that your doctor's office is unable (or unwilling) to provide you that sort of special attention?

Did you think you had no alternative to rushed, "**generic**" **managed care** that is the norm nowadays?

Then **Concierge Family Medicine** (CFM) was created for **YOU**.

CFM provides a **VIP medical experience** for a **limited number of very special patients** who appreciate a superior level of personal attention. Wealth is not a prerequisite because the cost is moderate.

At CFM we are **meticulously attentive** to all aspects of our patients' health needs. In addition, we do our best to ensure that every patient visit is a **pleasant, positive experience**.

We invite you to **visit our website** to learn more about CFM. Then please call and schedule a "get-acquainted" visit.

## What We Offer For a Single Annual Fee

### *VIP Treatment*

-  Unlimited office visits
-  Same-day appointments
-  On-time appointments

*"Since most of us spend our lives doing ordinary tasks, the most important thing is to carry them out extraordinarily well"*

Henry David Thoreau

We Take Care of Our  
Extraordinary Patients  
**Extraordinarily  
Well**

"Superior doctors prevent disease.  
"Mediocre doctors treat the disease  
before evident.  
"Inferior doctors treat the full-blown  
disease."

NAI-CHING

(first known Chinese medical text)

Tired of being herded  
through your doctor visits?

You wouldn't continue patronizing an exclusive restaurant whose service was

- ALWAYS LATE
- haphazard/undependable
- hectic
- indifferent
- downright rude

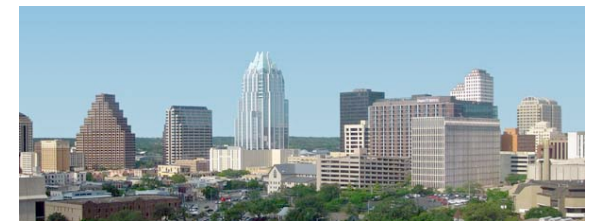

If you consistently received crummy service from an expensive hotel, an upscale clothing store or a luxury automobile dealership, you probably wouldn't go back.

So **WHY** do you tolerate  
galling indifference  
from your doctor's office?
